info@sciconbags.com - www.ftech.it

Ftech is an Italian cycling clothing Company born from a successful partnership between Massimo Fantin and his aunt Teresa, both cycling specialists for more than 20 years.

By combining their vast backgrounds in innovation, research, technical performance and experience with their unparalleled passion for cycling, Massimo and Teresa quickly understood the market evolution in customized clothing and decided to unleash its full potential by merging their know-how to create Ftech Industries, and became a leader in premium custom cycling wear.

Headquarters, Research & Development and production laboratories were established in Bassano del Grappa, Italy, cradle of the world's best cycling craftsmen.

Massimo Fantin is owner and CEO of SCI'CON Inc., leader in the production of bike and sport bags based in Italy. Strategic distribution, international customer service assistance, logistics and field research with teams and athletes are some of the main assets that Massimo offers to Ftech. SCI'CON is a worldwide distributor of Ftech.

Teresa "Zia" Fantin has been involved in cycling clothing for more than 30 years. She has contributed greatly to cycling wear technical advances, emphasizing the importance of comfort while understanding the crucial role ergonomics plays in riders' performance; Teresa was among the first to see the potential of lycra and is considered today a leading figure for her high quality production.

Fantin Industries had manufactured clothing for most prestigious cycling Companies and top international riders since 1980.

Italian tradition, technology, ergonomics, design, quality and experience in manufacturing with the best fabrics available are at the roots of Ftech foundation.

Ftech production is exclusively focused on customizing premium cycling wear upon specific customers requirements.

Semi Custom Program Solution for small orders.

It is also a great solution for organizations that do not intend to take part in Full Custom Program. We recommend the semi custom program for Team/Clubs that need less than 30 Kits.

Production time is 30 working days from deposit date. Guaranteed!

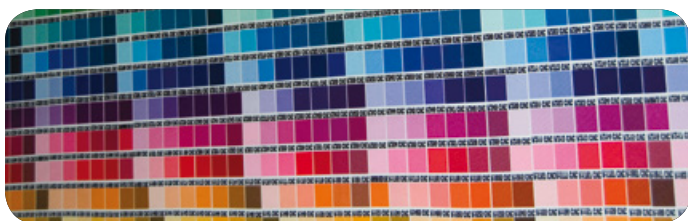

Cost is based on the quantity.

No minimum quantity required.

3D preview before order.

Ftech Semi Custom Program garments offer a great selection of styles and colours to fit every Team's look.

UNLIMITED DIGITAL COLOUR SYSTEM

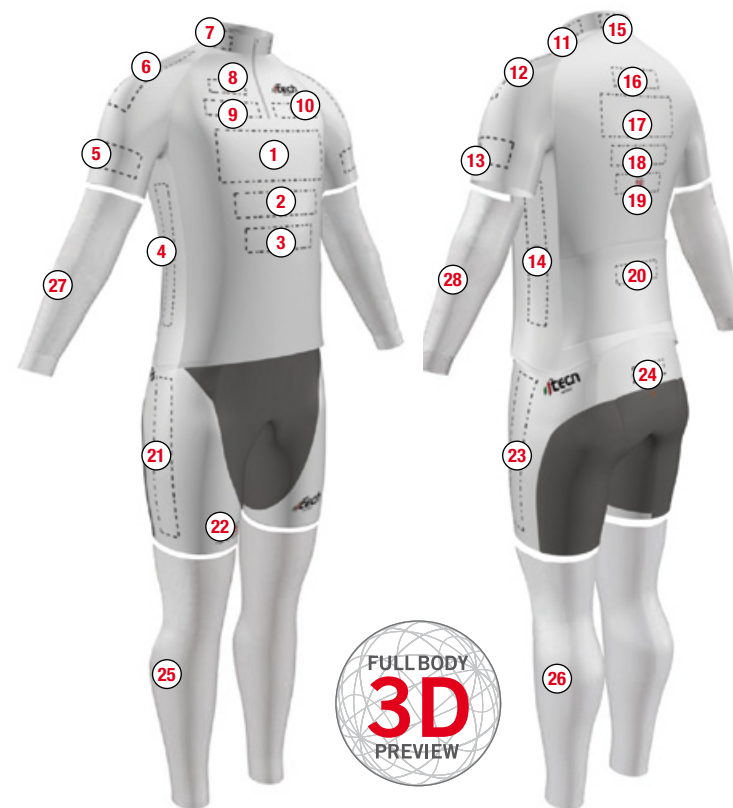

INTELLECTUAL PROPERTY OF F-TECH

Our graphic designs are important for our business. No matter the circumstances in which you come to view our work (submission, catalogue, web, quote, etc.) we are the lawful holder of the intellectual property rights under Italian and International laws.

Our graphic designs are protected from the first moment they are created. The designs are not required to be registered. You are licensed to view or use the designs only for the purpose for which are created. Any further or other use of purpose will be unlawful unless you obtain our prior written consent and on the terms and conditions we specify.

We are diligent about using other designs. If you ask us to produce goods for you using a design created by you or a third party you must warrant that you have acquired the necessary permissions and consents from the right holder. You fully indemnify and release us in this regard.

In the Semi Custom Program bibs & shorts are available with E.I.T. Carbon Air, Endurance 2 Air, Speed Air and Gem Air Shammies.

Full Custom Program No limitations. It's about fantasy.

We do not require minimum order but we recommend the full custom program for Teams/Clubs that need to order 30 or more Kits (Jerseys/bibshorts).

Production time is 30 working days from deposit date. Guaranteed!

Cost is based on the quantity of garments ordered. Price / quotations are free of charge.

No minimum quantity required.

3D preview before order.

Ftech Full Custom Program is all about fantasy! A graphic design proposal can be as simple as a few words or a list of customers design ideas. The more specific the brief of colours, logos and other elements required, the faster the overall process.

Ftech will be happy to take the lead in helping you through this design process or take your instruction and deliver to your specific requirements.

With the Ftech Full Custom Program there are no colour limitations thanks to our Unlimited Digital Colour System technology.

! LOGO REQUIREMENTS

Our Graphics Department work on the Apple Mac OSX platforms.

Most suitable formats are vector EPS or native Adobe Illustrator, Freehand or vector PDF, all fonts must be converted to paths/outlines. If the logos are not available in the above formats, a high res (300 dpi-CMYK) Tiff or JPG may be useful but a development fee will be charged. Low resolution RGB files can be used for the concept stage only.

Pantone colours pms code numbers are the most reliable way of communicating branding colours. If these are unavailable then supplied CMYK values will be adjusted to match. Important: customers are solely responsible for obtaining permission for use of all logos prior to submission.

Files will accepted on CD or via mail at info@sciconbags.com

In the Full Custom Program bibs & shorts are available with E.I.T. Carbon Air, Endurance 2 Air, Speed Air and Gem Air shammies.

Bring your design, we'll make it happen with the best materials and with the most talented Italian craftsmen.

CARBON AIR
E.I.T. EXCLUSIVELY MADE FOR FTECH

Carbon Air MULTI-D ANATOMIC

E.I.T. ultimate top-end shammie, with a unique curved anatomic shape to curve perfectly with human anatomy where it meets the bicycle saddle. The two half moon components of this shammie have been joined together with ultrasonic technology. E.I.T. innovative Carbon Air has special high density foam inserts placed at key pressure points, a series of internal micro holes for enhanced breathability and a special central channel to relieve pressure from the perineal area to provide maximum comfort and performance.

E.I.T. CARBONIUM MICROFIBRE

CARBON - The E.I.T. Carbonium microfibre aids heat dispersion, reduces friction and adds natural bacteriostasis and antistatic properties.

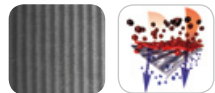

AIR - Full protection in the ischial and perineal area. Internal micro holes for high breathability and dry body.

Non padded wings. Extra light weight and freedom of movement.

Endurance 2 Air

Endurance 2 Men has centrally sewn inserts and is made with a new generation of high density foams. The X-Tract fabric structure has a double layer which helps collect and expel moisture. The perforated base layer provides increased breathability and quick dry. Endurance 2 Men is best for long rides.

E.I.T. X-TRACT MICROFIBRE

Ftech exclusively powered by Elastic Interface® Technology.

Speed Air

E.I.T. Speed Air Men is a pad with dual density that offers excellent comfort and freedom of movement, an enhanced anatomic three dimensional shape and E.I.T. X-Tract fabric, which guarantees all-way stretch and matchless softness. Perforated foam for extra ventilation.

E.I.T. X-TRACT MICROFIBRE

Gem Air

E.I.T. Women Gem Air has been specially designed just for female anatomy with a unique pearl shaped high density insert. Gem Air pad is made with the newest hi-performing E.I.T. X-Tract microfibre, featured by a double layer structure that helps collect and expel moisture. The perforated base layer provides increased breathability and quick dry.

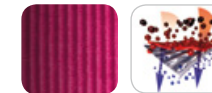

E.I.T. X-TRACT MICROFIBRE

Endurance 2 Air

Endurance 2 Women's pad has a specially shaped central protective insert zone which has been refined in this new model with a smaller and more accurate protective area. Besides, E.I.T. X-Tract fabric structure has a double layer which helps collect and expel moisture. The perforated base layer provides increased breathability and quick dry.

E.I.T. X-TRACT MICROFIBRE

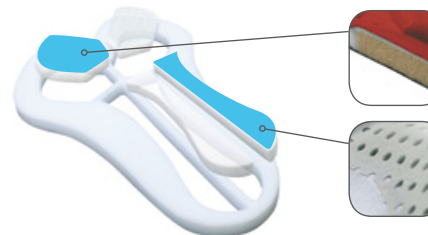

Speed Air

E.I.T. Speed Air Women is a pad with dual density foam construction, an enhanced anatomic three dimensional shape and our special high comfort E.I.T. X-Tract fabric, which guarantees all-way stretch and matchless softness. Perforated foam for extra ventilation.

E.I.T. X-TRACT MICROFIBRE

Different types of foam densities.

Perforated foam for extra ventilation.

Premium Bibs & Shorts

This collection offers the best in ergonomic fit and is shaped to conform to movements of a cyclist on a bike.

It is made entirely in Italy by artisans who have more than 30 years of experience in this field with the best Italian tech materials.

F-Tech Bibs & Shorts are designed to help you to perform better by eliminating pressure areas that restrict blood flow.

Pre-shaped super anatomical panels are designed to reduce friction and free movement.

Mesh upper bibs have a maximum ventilation and support design. They provide to the freedom of movement and the support to keep moving when you think you want to quit.

Lightweight elastic with internal silicone gripper holds shorts in their position, while reflective strip gives you night visibility.

F-Tech Bibs & Shorts are available with Carbon Air shammy for men and Anatomic Gem for woman. Both use legendary Elastic Interface Technology Air System.

Available only in black. Sizes: XS,S,M,L,XL,2XL,3XL

Fabrics Technology A professional and important choice.

Fabrics in our apparel are very important for us. The tech fabrics we use are almost all Italian and offer the highest performance to our Athletes. Our continuous commitment to test new materials is key to our success.

LYCRA by CARVICO

A family of premium stretch fibres that provide fabrics and garments with incomparable fit, comfort and freedom of movement. Riviera is highly fashionable technical charmeuse with Xtra Life Lycra®, extremely soft to the touch and offering exceptional comfort, resistant to sun creams and perspiration and offering protection against UV rays. Remarkable ability to stretch up to 600% and spring back to its original length.

VUELTA

Innovative bi-elastic techno fabric with Lycra. Soft, comfortable and with a pleasant feel, offers excellent benefits in terms of breathability, high resistance to pilling and abrasion as well as an exclusive anti-bacterial treatment that blocks the proliferation of bacteria.

HYDROFIT SOFT TOUCH

Thanks to its surprising characteristics of softness, lightness and resistance, Hydrofit is an Italian fabric especially indicated for active sport, because its innovative honeycomb structure lets just enough air flow through to keep skin cool and dry and allows humidity to be expelled immediately, offering you the maximum comfort. Hydrofit offers protection against UV rays and the fibers are resistant to shrinking, stretching and wrinkling.

RAINTEX

Lightweight, breathable and elastic dual layer bonded fabric with a windproof and waterproof membrane. RainTex® is a lighter version of WindTex® without the innermost lining.

ZEROWIND

Zerowind is an innovative membrane that adjust its breathability to the level of physical activity being performed: more movement, more sweat, higher breathability. Less movement, less sweat, lower breathability. Waterproof, thermic, windproof, sweat-absorbent and elastic.

www.ftech.it

Our products include the original Ftech zipper puller, warranty tag, inner labels and Ftech outer logos.

Warranty & General Conditions

Ftech Clothing is warranted to be free of defects of material or workmanship for a period of one year from date of sale. Damaged goods must be returned to Ftech for inspection. Ftech shall be the sole judge of warrant ability. Warranty is void if, in our opinion, the product has been misused, improperly maintained, repaired, altered or modified in any way. Ftech will be not responsible for damage from embroidery saddle (shammy zone).

Products found to be defective will be repaired or replaced with products of similar function or credit will be issued. In no case shall credit exceed the original invoice price. Products not covered under this warranty will be returned.

Order will be completed even if it has been missed 5% of the order.

Products will be delivered folded in a neutral polybag.

Factory Samples Bag Sizes and colours tools.

FTech Factory Samples Bag

Our sizing chart is a great way to visualize our sizing patterns, but the only way to be sure you are getting the right size for you is to try on a current Ftech Factory Sample.

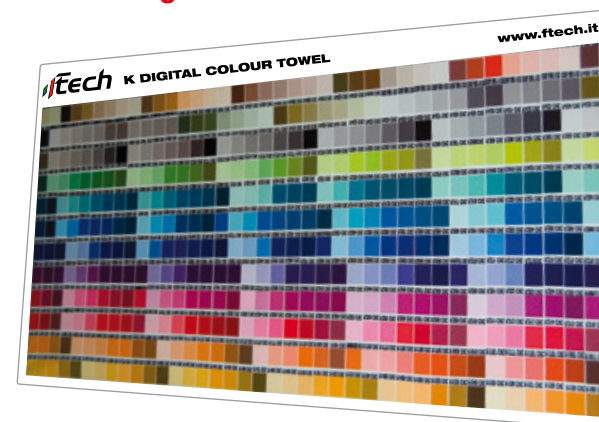

This allows you to not only ensure proper sizing, but also see the quality of construction, fabrics and pads that we use.

Custom cycling clothing is NOT returnable on the basis of incorrect sizing, so it is extremely important that you order the correct sizes.

Upon your request we will send you a sizing kit that represents an array of sizes and products in a nice SCICON sport bag.

For more information contact our customer service department.

FTech K Digital Colour Towel

If you want to be sure that colours on the garment will match your logos/design expectations, you can require the FKDCT (Ftech K Digital Colour Towel). An easy tool that allows you to match almost 1.000 spot colours with their relative Pantone® code.

Hydrofit FKDCT: SP010004501

Lycra FKDCT: SP010004505

How to Order Ready to get started in 5 easy steps?

We are always at your complete disposal to help you in the creation of exclusive products and to give you the right advice to make your brand visible along all the roads of the World.

1. CONTACT FOR A FREE QUOTATION

Contact Ftech at www.ftech.it or phone +39 0424 518878 to receive a free quotation. The total cost will depend upon the number of jerseys, bibshorts and accessories you will need as well as your program (Full Custom or Semi Custom).

www.ftech.it
phone +39 0424 518878
fax +39 0424 518877

2. QUANTITY AND PRODUCT INFO

Collect Team info. At this point it will be important to get your Team together to collect quantities and sizes you will need. Our sizing chart is a great way to visualize our sizing patterns, but the only way to be sure you are getting the right size for you is to try samples on using a Ftech Factory Samples Bag. Submit your final order with products quantities and sizes to us. 50% deposit is required to start production.

NO
M.O.Q.

3. LOGOS, COLOURS, DESIGN INFO

Send us your design ideas, logos, colours and any information that will be needed to produce your kit.

4. 3D PREVIEW

We will send you back a 3D preview via e-mail within 5 working days. You will have 2 opportunities to modify the proposal if necessary (for more modifications we will charge a nominal fee).

5. ORDER CONFIRMATION AND DELIVERY

We will send you an order confirmation with all details as you will need to reference it for inquiry purposes. 30 days after receiving your 50% deposit, your order will be ready for shipment. Final payment before delivery.
